ABOUT US

Built by nurses, for nurses, PreSAGE is the leading AI-powered fall prevention system in Singapore that helps care teams act before accidents happen:

1. **Prevents falls** – detects bed exits early and alerts nurses instantly.
2. **Detects falls** in real time so help arrives fast.
3. **Delivers key patient insights** – activity, movement, temperature trends.
4. **Empowers leaders** with data for staffing, workload, and incident review.

Our mission is to **Empower data-driven, preventive care for everyone.**
