***transforming the way
you care ...***

cura¹ - Helping to Care

For over 30 years, cura¹ has led innovation in gerontic care and electronic communication systems. We design and support world-class falls prevention and patient safety solutions that empower carers & protect those in their care.

Transforming the Way You Care

Our intelligent monitoring systems and accessible local support integrate seamlessly into your care environment, helping organisations of every size deliver safer, smarter care.

Trusted by Carers. Proven in Practice

Our Australian-made solutions set the benchmark for reliability, integration, scalability and support that is trusted by thousands of care providers across Australia & New Zealand.

Innovation That Delivers

Our flagship ENSIGN™ sensor platform and integrated cordless solutions demonstrate how thoughtful design can transform care outcomes. We're redefining what's possible in patient monitoring and falls prevention.

Partner with the Experts

When you partner with cura¹, you're not just buying equipment. You're investing in a long-term collaboration with the region's most experienced and trusted falls prevention specialists.
